Quantitative Brokers Wins “Best Trading & Execution Technology” at 2015 CTA Intelligence Awards

New York, February 5, 2015; Quantitative Brokers (“QB”), a leading provider of agency algorithms for fixed income and futures markets, has been named the winner of the “Best Trading & Execution Technology” category at the 2015 CTA Intelligence US Services Awards.

The annual CTA US Services Awards recognize and reward those CTA fund service providers that have demonstrated exceptional customer service and innovative product development over the past calendar year.

“We’ve been committed to delivering a superior service since day one, not only in terms of performance but with responsiveness to clients,” says Christian Hauff, CEO and co-founder of QB. “This award validates these efforts for which we are extremely grateful, while at the same time we are looking forward to a number of break-through initiatives in 2015.”

“Quantitative Brokers provides solutions that greatly enhance the way CTAs perform their everyday tasks and allocate their time,” said Robert Almgren, President and co-founder of QB. “We are very excited that our efforts have paid off, not only in terms of business, but with the recognition that the CTA community has given us with this great award.”

In 2014, the Financial Industry Regulatory Authority (FINRA) has the U.S. Securities and Exchange Commission (SEC) approved QB as a broker-dealer for government securities.

About Quantitative Brokers

Quantitative Brokers (“QB”) is a global, fully-independent, FCM-neutral, dealer-neutral, NFA and FINRA-registered, broker-dealer and a leading provider of algorithms in the cash Treasuries, fixed income and futures markets. QB creates a dynamic, collaborative environment that breeds financial and technological innovation. Clients span the range of asset managers, hedge funds CTAs and banks. QB is headquartered in midtown Manhattan, NY, and is a National Futures Association member.
